All applications will be considered on their merits, bearing in mind the opportunity for other sources of funding. In making grants, the trustees take into account the number of people to benefit and the lasting value and impact associated with the project. There is no requirement to issue a grant if no suitable applications have been received. Applications for support for school visits should include the literature and the educational benefits the trip is intended to bring about. Applications for trips abroad must clearly demonstrate the planned educational impact/outcomes.
